Rome. April 6.—The gold premium at closing was 2.32. ONE KILLED AND FIVE HURT. Coach and Pullman Thrown From

passing through Millets, a tank station, seven miles west of here, early to-day, the rear coach and the Pullman sleeper were thrown off the track. One person was killed and five injured. The dead: Abraham Burnstein, Chicago. The injured: C. Minnehan, Providence. R. I., compound fracture of the skull, fractured leg; the Reverend M. J. Ozshoski, Chicago, a Jesuit priest, two bad scalp wounds: J. L. Gordon, Rochester, N. Y. hadly bruised; Frank Thomas, Mount Clemens, Mich., badly bruised; J. L. Zeigler. Detroit, brakeman, bruises.

The wreck occurred at a switch on which a freight train was standing. The first seven cars crossed the switch safely, but as the last coach was passing over the switch points, the trucks caught in such a way as to throw it and the Pullman car following off the tracks over onto the engine of the freight train. Two cars and the engine were thrown into the ditch. It is said the switch bad been tampered with. The engineers and firemen of the freight engine were examining the engine as the two cars crashed into it, and they had narrow escapes. The passenger train was running at high speed when the accident occurred. The injured were taken into Detroit, where all were reported as doing well this evening.

Burnstein's body was taken to Charlotte.

DOCTOR W. W. BOYD ADDRESSES STUDENTS

Barnes Medical College Baccalaureate Sermon at Second Baptist Church.

The Reverend Doctor W. W. Boyd preached the baccalaureate sermon of the Barnes Medical College at the Second Bap-tist Church last night. About 200 students, including the class, were present, sitting in reserved seats in the front rows. A special music programme was given, including solos Doctor Boyd said, in part: "The course of mind and character rule the world. We recognize this in every calling and profession of life. There must be certain bases and sources of this power, which bring things to pass. The foundation is physical. Systematic physical culture is necessary to that robust vitality, which lies at the bot-tom of all large success. tom of all large success.

"Among the philosophers of whom this was true are Kant and Emerson. In the pulpit this was true of Beecher, Brooks and Spurgeon. In statecraft, Gladstone and Bis-

marck. In medicine, Holmes, Bigelow and "Intellect is also necessary as a foundation tion of mental power; the law of industry

tion of mental power; the law of industry, which is the basis of genius, and the law of philanthropy. While mind is in 2 most ure free, it is dependent on the infinite mind which created it.

"Newton, Spenser and Milton, in their writings, show how deep was their sense of dependence on God, the spirit. The medical profession is dealing all the time with matter and it is natural that physicians should in a measure forget the most important side of life, but they must consider the spiritual side or all is lost." Doctor Boyd took his text from Luke iv, 22: "Physician, heal thyself."

The commencement exercises of the graduating class takes place Thursday evening

The commencement exercises of the grautating class takes place Thursday evening at Memorial Hall. The Reverend John D. Vincil, president of the Board of Trustees, will deliver the address, Professor M. D. Jones will deliver the faculty valedictory, and Professor A. M. NAVY TO BE 50,000 STRONG.

will comprise the effective enlisted force of the navy in 1910 if a tentative plan under consideration by the Navy Department be adopted by Congress. The first step in execution of this plan has just been taken by the subcommittee of the House Naval Committee, which, in the draft of the naval appropriation bill reported to the committee, has provided that the enlisted force shall consist of 25,500 men and 2,500 boys. This is an increase of 3,000 men.

The new construction granted, and which will be authorized by Congress, makes it imperative that there should be the gradual increase contemplated. This means that there must be continuance of the policy of enlisting and training landsmen. The department is preparing to assign additional ships to the landsmen training ships, among them the Reina Mercedes, captured from Spain, the battleship Texas and the Panther and Adams.
